Work Experience

TopGolf   Sep 2018 - Sep 2020
Food Runner/Guest Service Representative
- Served food to guests in an efficient and friendly manner
- Handled technical issues with bays in a timely manner
- Worked well independently and on a team to solve problems

EoS Fitness   Jun 2021 – Sep 2021
Service Associate
- Enthusiastically greeted and checked-in members upon their arrival
- Provided superior customer service to members by addressing all questions and concerns
- Responded to problems with excellent troubleshooting abilities

Leadership Experience

ACM (Association for Computing Machinery)   Sep 2021 – Jan 2022
Underclassman Representative
- Spread awareness of the association by speaking to classrooms and classmates about our events
- Contacted Representatives of the university to help plan and reserve space for events or advertise our club around campus
- Communicated with other ACM members to give the board a more well-rounded perspective on underclassman needs

Projects

INRIX Hackathon   November 2021
- Worked and planned with a team of 5 others to develop an application which made use of traffic data from INRIX public APIs

- Aided implementation of the front end of our application using Swift which employed Apple MapKit to display our data on a user-friendly application

Personal Website   Summer 2022

https://qsamms.github.io/PersonalWebsite/
- Developed my own personal website to display information about myself and current projects I'm working on using HTML and CSS

Python Twitter Bot   Summer 2022

@superfunbot
- Developed a Python Twitter bot that tweets an interesting fact every 6 hours, implemented using Twitter's API v2 and a public interesting fact API.
